

Project Gallery

From epoxy flooring the industrial, residential and commercial industry projects, Epoxy Flooring Brisbane has produced quality flooring solution by repairing, protecting and beautifying old, damaged and new floors.

Our project gallery of finished project displays breath taking floor designs.

If you're on the lookout for concrete resurfacing or epoxy coating for your residential property or if you are after something easy to clean and maintain for your commercial property or even if you are after a chemical resistance seamless floor for your manufacturing property. Look no

further as our photo gallery has numerous flooring projects that will give you an idea as to how your property will look like.

We also cater for specific floor solution to suit your house design. Our team goes out of their way to help you find the best possible solution. We will first provide you with a free quote. After confirmation, we will inspect your property and begin work.

A complete work prep will be followed through to ensure the floor lasts for many more years. To add spark, we can add any type of flakes giving the garage a seamless look. We promise you will be a satisfied customer. Check this article to learn more about the benefits of having epoxy floors for your flooring projects.

Requirements

There are a few requirements needed before a project approval to proceed. We prefer the project area cleared and cleaned free from debris. In addition, cars and traffic removed to ease work. In addition, our staff works around the clock for project completion. Thus, making the garage available for our clients at the earliest.

Warranty

Firstly, we give a one-year workmanship warranty against

peeling and delamination. Secondly, the warranty does not cover moisture-related and negligent issues. A manufacturer certificate, on the other hand, could be offered if it has been mentioned prior to the start. As the manufacturing representative has to assess the project to be able to issue the necessary certification. We do not offer a warranty for substrate failure such as cracking of floors, shifting, or crumbling of the concrete.

Occupational health and safety

As part of our commitment to achieving the principles of health and safety in the workplace. The company, Epoxy Flooring Brisbane, recognizes its moral and legal responsibility to provide a safe and healthy work environment for its employees, contractors, customers, and visitors.

This commitment also extends to ensuring that our operations do not place the local community or environment at risk of injury, illness, or damage. Furthermore, we also declare a no-smoking zone due to the material used.
